

Right to Life Northwest Indiana's:

AMBASSADORS FOR LIFE TRAINING

May 16th, 2026

Join us in building a brighter future, where informed voices can champion the value of life.

We recognize that many individuals either reject or feel indifferent towards the pro-life perspective, often influenced by cultural norms or simply because they haven't been exposed to a persuasive pro-life viewpoint. We believe young people must have meaningful opportunities to engage with life issues that go beyond the soundbites and sensationalism prevalent on social media and other platforms.

The Ambassadors for Life Training program is designed to empower high school and college-aged students (and adults) to become passionate advocates for LIFE.

This immersive, one-day experience is dedicated to dispelling common myths, offering fact-based education on critical life issues, and fostering a compassionate community of understanding among peers.

Where: Queen of All Saints Church, Legacy Center
